UJJIVAN SMALL FINANCE BANK

Build a Better Life

There are banks for the wealthy citizens of the country. Banks that help their money grow. Banks that are willing to finance their dreams and aspirations. Banks that are truly modern with new age solutions at their customers' fingertips. But what about the millions of fellow Indians, who have limited access to formal banking? This question led us on our journey as we commenced the banking operations of Ujjivan Small Finance Bank, on February 1, 2017. As a scheduled commercial bank, our aim is to promote financial and digital inclusion, reaching out to those who need it the most.

We offer a comprehensive range of banking products & services, including savings and current accounts, fixed and recurring deposits, insurance and various types of loans, from microfinance to housing, agriculture and allied activities, vehicle financing and support to MSMEs. We also collaborate with other institutions to provide them with necessary financial support. As part of our digital solutions, we offer services such as mobile and Internet banking, WhatsApp banking, Chatbot banking, vernacular, visual, voice based app (Hello Ujjivan), video KYC, UPI-based remittances, IMPS, NEFT, RTGS, and seamless bill payment facilities.

Our journey began in 2005 with Ujjivan Financial Services Ltd., focussed on uplifting the economically active individuals. In 2016, we received Reserve Bank of India's approval to become a Small Finance Bank, dedicated to empowering the financially unserved and under-served population.

Over the years, our strengthened digital interfaces across regions and languages have empowered our customers to seek timely and easy access to finance; enabling us to deepen our customer connect across diverse locations.

Customer safety is of paramount importance to us. In the interconnected world, organisations prioritise a secure digital environment by minimising potential vulnerability. We maintain an attack surface score of 800-900, one of the best in BFSI sector, by adopting automated tools for attack surface scanning and management. This ensures that our customers can trust and safely bank with us online, anytime, anywhere.

During May 2024, Ujjivan Financial Services Ltd merged into Ujjivan Small Finance Bank. This merger is a reflection of our resilience, adaptability, and a commitment to continued growth, as we set the stage for greater opportunity.

As a 'Responsible Bank' we remain invested in creating a sustainable social impact through community development and financial literacy initiatives, through our outreach programmes and partners.

In FY24, we expanded our presence with our 1st branch in Andhra Pradesh, bringing the overall coverage to 26 states and Union territories. Additionally, we introduced the Maxima Savings Account and Business Maxima Current Account, tailored for the premium customer segment. These new offerings are dedicated to enhancing the banking experience by offering them privileges that match their banking and lifestyle needs.

During Q1 FY24-25, we achieved a Profit After Tax of ₹301 Cr. With the dedication of 22,882 Ujjivanites and the trust of over 90 lakh customers, investors, and stakeholders, we remain committed to our mission of financial and digital inclusion for all, paving the way for a sustainable tomorrow.
